HOTEL BUENOS AIRES: A LUXURY PROJECT IN THE ARGENTINEAN CAPITAL

The Argentine capital will have in 2018 a new hotel, near the city center, with all the comfort that the client deserves for some perfect vacations.

Many details are still unknown but Essential Home and DelightFULL were the two brands chosen to decorate this new project in Buenos Aires.

These two brands are characterized by a mid-century modern style that comes perfectly together in this project, creating a sumptuous interior design full of eye-catching appointments. The luxurious ambiance is reached by a careful and well thought out combination of all the design elements, from the colors to the materials chosen.

For this project, the color scheme chosen is based in the nature colors like the green, blue and mustard, as we can find in the surroundings. The idea was to create a balance between the outside and the inside of the hotel, giving to the client all the conditions to relax. The appointments in gold give the sense of luxury that the hotel has.

With light fixtures by DelightFULL, a brand that is well known for producing luxurious and unique lamps and lavish sumptuous furniture by Essential Home, this hotel project combines perfectly the nature and lifestyle of Argentina.
